Section 1.0: Introduction and Scope

1.1 Purpose of the Policy

The Global Travel and Expense (T&E) Policy is designed to provide a clear framework for employees of the Company to conduct business travel efficiently and responsibly. The primary objectives are:

- To ensure all employees travel in safety and comfort appropriate for the business context.
- To maintain a high standard of fiscal responsibility and transparency.
- To ensure compliance with international tax laws and auditing standards.

1.2 Employee Responsibility

Employees are expected to exercise good judgment and spend Company funds as they would their own. The traveler is responsible for:

- Reading and understanding this policy prior to booking travel.
- Ensuring all expenses are business-related and appropriately documented.
- Submitting expense reports within 30 days of the trip completion.

1.3 Scope

This policy applies to all full-time employees, part-time employees, and contractors (unless otherwise specified in their contract) regardless of their geographic location or department.

Section 2.0: General Principles

2.1 The "Reasonable Person" Standard

Expenses are considered "reimbursable" if they are necessary, reasonable, and incurred solely for the benefit of the Company. If an expense is deemed "excessive" (e.g., five-star luxury upgrades when a standard option was available), the Company reserves the right to only reimburse the standard rate.

2.2 Payment Methods

- Corporate Credit Cards: All employees who travel more than three times per year will be issued a Corporate Credit Card. This card must be used for all T&E expenses.

- Personal Funds: If a corporate card is not issued, employees may use personal funds and seek reimbursement.

- Direct Billing: Where possible, airfare and lodging should be direct-billed to the Company via the approved travel portal.

Section 3.0: Travel Authorization Workflow

3.1 Pre-Approval Requirements

All international travel and domestic travel exceeding $1,500.00 must be pre-approved via the internal Travel Authorization Form (TAF).

- Domestic (under $1,500): Manager approval via email or Slack is sufficient.
- International: Requires VP-level approval at least 14 days in advance.

3.2 Booking Channels

To ensure the Company can fulfill its "Duty of Care" (locating employees in case of an emergency), all bookings for flights, hotels, and rail must be made through the Global Concierge Portal.

- Bookings made outside this portal without prior "Out-of-Channel" authorization may be subject to a 20% reimbursement penalty.

3.3 Emergency Modifications

In the event of flight cancellations, weather delays, or safety concerns, employees are authorized to make necessary changes to their itinerary without immediate approval, provided the cost increase does not exceed $500.00. Any changes above this threshold require a phone call or message to the Department Head.

Section 4.0: Transportation

4.1 Air Travel

4.1.1 Class of Service

- Domestic (Under 5 hours): All employees must book Economy or Economy Plus for flights within the same continent or under five hours in duration.

- International (Over 5 hours): Premium Economy is permitted. Business Class requires written approval from a C-level executive and is only considered for flights exceeding eight hours where the employee must work immediately upon arrival.

- First Class: First Class travel is strictly prohibited regardless of duration or rank.

4.1.2 Booking Lead Time

To minimize costs, flights should be booked at least 14 days in advance. Flights booked within 7 days of departure require a "Short-Notice Justification" tag in the travel portal.

4.1.3 Frequent Flyer Programs & Upgrades

Employees may retain frequent flyer miles earned during business travel. However, the choice of airline must be based on the lowest logical fare, not personal program preference. Upgrades purchased with personal miles or funds are permitted but are not reimbursable.

4.2 Rail Travel

Rail travel is encouraged for regional trips (e.g., Northeast Corridor in the US, or between major European cities) as a sustainable alternative to flying.

- Standard Class is the default for all rail travel.

- Business/First Class Rail is permitted only for trips exceeding four hours to allow for a productive workspace.

4.3 Ground Transportation

4.3.1 Rental Cars

Rental cars should only be used when they are more cost-effective than taxis or ride-sharing, or when multiple client visits in a single day make other forms of transport impractical.

- Vehicle Category: Limited to Intermediate/Mid-size or smaller. SUVs or Luxury vehicles are only reimbursable if 3+ employees are traveling together with luggage.

- Fuel: Vehicles must be returned with a full tank. "Pre-paid fuel" options offered by rental agencies are generally non-reimbursable due to inflated rates.

- Insurance: Employees should decline the rental agency's collision damage waiver (CDW) as the Company's corporate insurance policy provides coverage.

4.3.2 Ride-sharing & Taxis

- Uber/Lyft: Use of "Standard" or "Wait & Save" is expected. "Black" or "Lux" tiers are non-reimbursable.

- Tips: Gratuities for drivers are reimbursable up to 20% of the fare.

4.3.3 Personal Vehicle Usage (Mileage)

Employees using their own vehicles for business travel (excluding their daily commute to the office) will be reimbursed at the current IRS Standard Mileage Rate (or local equivalent).

- Requirement: A log showing the date, starting location, destination, and total miles must be attached to the expense report.

- Maintenance: The mileage rate covers gas, wear and tear, and insurance. Separate claims for fuel or repairs on personal vehicles will not be honored.

4.4 Parking and Tolls

- Airport parking should be at "Long-Term" or "Economy" lots for trips exceeding 48 hours. Valet parking is only reimbursable if no other option is available.

- All bridge, tunnel, and highway tolls incurred during business travel are fully reimbursable. Receipts are required for amounts exceeding $25.00.

Section 5.0: Lodging

5.1 Hotel Room Standards

5.1.1 Approved Property Types

Employees are expected to stay in "Mid-scale" or "Standard" business hotels (e.g., Marriott, Hilton, Hyatt, or local equivalents).

- Room Type: Reimbursement is limited to a Standard Single Room.
- Luxury/Boutique Hotels: Stays at 5-star or "Luxury" properties are only permitted if they are the designated site of a conference or if no standard hotels are available within a 10-mile radius. Written justification must be attached to the expense report.

5.1.2 Nightly Rate Caps

To account for market fluctuations, the Company utilizes a Tiered City Cap system. Rates exceeding these caps by more than 20% require "Out-of-Policy" approval:

- Tier 1 (High Cost): $350/night (e.g., New York, London, Tokyo, San Francisco).
- Tier 2 (Standard): $250/night (e.g., Chicago, Berlin, Sydney, Austin).
- Tier 3 (All Others): $180/night.

5.2 Booking and Payment

- Corporate Portal: All lodging must be booked via the Global Concierge Portal.
- Guaranteed Late Arrival: Rooms must be guaranteed with the employee's Corporate Credit Card.
- Folio Requirements: A final, itemized hotel bill (folio) must be obtained upon checkout. A credit card "summary" receipt is not sufficient for lodging reimbursement as it does not break down room tax, meals, and incidentals.

5.3 Incidental Charges and Amenities

5.3.1 Reimbursable Incidentals

- Internet/Wi-Fi: Standard-speed Wi-Fi is reimbursable if not included in the room rate. "Premium" or "High-Speed" tiers are only reimbursable for employees required to perform data-heavy tasks (e.g., Video Editing, Large File Transfers).
- Gym Access: Only reimbursable if it is a mandatory "Resort Fee" or "Facility Fee" charged by the hotel. Optional day passes to external gyms are personal expenses.

5.3.2 Non-Reimbursable Incidentals

- In-Room Movies: Standard or On-Demand entertainment.
- Minibar: All food and beverages consumed from the minibar.
- Spa/Personal Services: Massages, saunas, or salon services.
- Laundry: Only reimbursable for trips exceeding four (4) consecutive business days. Claims are limited to $30.00 per week.

5.4 Cancellations and "No-Show" Fees
Employees are responsible for canceling hotel reservations within the hotel's specific cancellation window (typically 24–48 hours).

- Company-Driven Cancellation: If a meeting is canceled by the Company or a Client, the resulting "No-Show" fee is reimbursable.
- Employee Negligence: If a fee is incurred due to an employee forgetting to cancel or choosing a different hotel last minute, the fee will be the personal responsibility of the employee.

5.5 Alternative Lodging (Airbnb, VRBO)

The use of short-term rental platforms (e.g., Airbnb) is permitted only if:

1. The total cost (including cleaning fees) is at least 15% lower than a standard hotel.
2. The property provides a dedicated workspace and secure Wi-Fi.
3. The stay exceeds three nights.

Note: Safety and liability coverage for alternative lodging is the responsibility of the traveler.

5.6 Staying with Friends or Family

Employees are encouraged to stay with friends or family to save Company costs. In such cases:

- No lodging reimbursement will be paid.
- The employee may claim up to $50.00 for a "Host Gift" or "Thank You Dinner" for the host (Receipt required).

Section 6.0: Meals & Entertainment

6.1 Individual Meal Expenses

Individual meals are defined as meals taken by an employee while traveling alone on business or with other employees where no business is being conducted with an external party.

6.1.1 Daily Meal Allowance (Per Diem vs. Actuals)

The Company utilizes an "Actual Expense" model rather than a flat Per Diem. Employees are reimbursed for the actual cost of meals, provided they are within the following Daily Caps:

- Domestic (Standard): $75.00/day
- Domestic (High-Cost Cities): $100.00/day (See Appendix A for city list)
- International: $120.00/day

6.1.2 Meal Breakdown (Guidelines)

While the total daily cap is the primary limit, the following targets should guide spending:

- Breakfast: $15.00
- Lunch: $25.00
- Dinner: $45.00 (Standard) / $60.00 (High-Cost)

6.1.3 Exceptions & Eligibility

- Breakfast Eligibility: Only reimbursable if the business travel begins before 7:00 AM or the employee stayed overnight at a hotel.

- Dinner Eligibility: Only reimbursable if the business travel concludes after 8:00 PM or the employee is staying overnight.

- Included Meals: If a meal is provided by a conference, airline, or client, the employee may not claim a separate reimbursement for that specific meal.

6.2 Business and Client Entertainment

Business entertainment involves meals or events with clients, prospects, or external partners where a specific business topic is discussed.

6.2.1 Approval Limits

- Up to $150.00 per person: Permitted with standard Manager approval.

- Over $150.00 per person: Requires Prior Written Approval from a Department Head or VP.

- Over $1,000.00 total: Requires CFO Approval regardless of the per-person cost.

6.2.2 Required Documentation

For all entertainment expenses, the IRS and Company policy require the "Five W's" to be recorded in the expense system:

1. Who: Names and titles of all attendees (Company and External).

2. What: The nature of the entertainment (e.g., Dinner, Sporting Event).

3. Where: The name and location of the venue.

4. When: The date and time.

5. Why: The specific business purpose or project discussed.

6.3 Alcohol Policy

The Company recognizes that moderate alcohol consumption may occur during business dinners.

- Reasonableness: Alcohol costs must be "reasonable" (e.g., one or two drinks per person). Bottles of wine exceeding $100.00 are considered excessive and are non-reimbursable.

- Prohibition: Alcohol is not reimbursable during lunch hours or for individual meals (non-client facing) unless specifically approved for a team-building event.

- Safety: Employees are expected to act professionally. Any legal issues arising from intoxication (e.g., DUI) are the sole responsibility of the employee.

6.4 Group Meals (Internal)

Group meals involving only Company employees are generally discouraged unless:

- It is a scheduled team-building event (Limited to one per quarter).
- It is a working lunch where employees are required to stay in the office to meet a deadline.
- The "Most Senior Person" rule applies: The most senior employee present must pay the bill and submit the expense report.

6.5 Tips and Gratuities

- Standard Rate: Tips for meal service are reimbursable up to 20% of the subtotal.
- Excessive Tipping: Tips exceeding 25% will be flagged for review and may be partially rejected.
- Mandatory Service Charges: Large-group "Auto-gratuity" is fully reimbursable.

Section 7.0: Miscellaneous Reimbursable Expenses

7.1 Connectivity and Communications

7.1.1 International Roaming Employees traveling internationally should activate a **Company-approved International Roaming Plan** before departure.

- **Reimbursable:** Standard daily roaming fees (e.g., $10/day plans).
- **Non-Reimbursable:** "Pay-as-you-go" data charges exceeding $50.00 that could have been avoided with a proper plan.

7.1.2 In-Flight Wi-Fi Wi-Fi during flights is reimbursable only if the flight duration exceeds **two (2) hours** and the employee is required to perform urgent business tasks. Receipts are mandatory.

7.2 Laundry and Dry Cleaning

- **Eligibility:** Reimbursable only for business trips lasting **five (5) or more consecutive nights**.
- **Limit:** Up to **$30.00 per week** is permitted.

- **Hotel Porters:** $2.00–$5.00 per bag.

The following items are considered personal expenses and will **not** be reimbursed by the Company under any circumstances:

8.1 Personal Care and Comfort

- **Toiletries:** Toothbrushes, toothpaste, razors, or hair products purchased during travel.
- **Clothing:** Purchase of any apparel, including "emergency" items due to lost luggage (unless specifically authorized by HR during a baggage claim dispute).

- **Late Fees:** Interest charges or late fees on personal credit cards used for business expenses.

9.1 Submission Timelines

- Standard Deadline: Expense reports must be submitted within thirty (30) calendar days of the completion of a business trip or the date the expense was incurred.

- Late Submissions: Reports submitted after 60 days require a written explanation and Department Head approval. Reports submitted after 90 days will generally not be reimbursed unless extreme extenuating circumstances exist.

- Monthly Cut-off: To ensure accurate financial closing, all expenses for the current month should be submitted by the 25th of that month.

9.2 Receipt Requirements

- Threshold: Original, itemized receipts are required for all individual expenses exceeding $25.00.

- Exceptions: Taxis/Ride-sharing, tolls, and parking require receipts regardless of the amount.

- Digital Copies: High-resolution scans or photos of receipts are acceptable. Employees are encouraged to use the Company’s mobile expense app to capture receipts at the point of sale.

- Missing Receipts: In the rare event a receipt is lost, the employee must complete a Missing Receipt Affidavit. Frequent use of this affidavit (more than three times per year) will trigger a mandatory audit of the employee's account.

9.3 Foreign Currency Conversion

- Expenses incurred in foreign currencies should be converted to the employee’s home currency using the exchange rate provided by the corporate travel system on the date of the transaction.

- If a personal card was used, the employee may use the actual exchange rate charged by their bank, provided they attach the bank statement showing the conversion.

9.4 Audit and Compliance

- Random Audits: 10% of all submitted expense reports are subject to a random, detailed audit by the Finance Department.

- Targeted Audits: Any report containing "Flagged Items" (e.g., luxury hotels, excessive alcohol, or weekend travel) will automatically be routed for manual review.

- Consequences of Non-Compliance: * Level 1 (Minor): Rejection of the specific line item and a request for more info.

    - Level 2 (Repeat/Major): Suspension of corporate credit card privileges.

    - Level 3 (Fraud): Intentional falsification of expense reports is grounds for immediate termination of employment.

Section 10.0: Sustainability and Eco-Friendly Travel 10.1 Environmental Commitment

The Company is committed to reducing its carbon footprint by 30% by 2030. Business travel is a significant contributor to our emissions. Employees are encouraged to evaluate if a trip is strictly necessary or if the business objective can be achieved via video conferencing.

10.2 Rail over Air Mandate For all regional travel where a high-speed rail alternative exists with a total transit time of under four (4) hours, rail travel is **mandatory**.

- **Example Routes:** London to Paris (Eurostar), New York to Washington D.C. (Acela), Paris to Lyon (TGV).
- **Exception:** Flying is only permitted if the employee is transporting equipment exceeding 50 lbs or if the flight is a connecting leg of a larger international journey.

10.3 Carbon Offsets

The Global Concierge Portal automatically calculates the carbon impact of every flight. The Company pays a mandatory internal "Carbon Tax" on all flight bookings.

- **Self-Booking Warning:** If a flight is booked outside the portal, the employee must manually select a carbon offset option during checkout. Failure to do so will result in a $50.00 "Non-Compliance Fee" deducted from the reimbursement.

10.4 Green Hotels Priority should be given to hotels with LEED or Green Key certifications. The Global Concierge Portal will display a "Green Leaf" icon next to preferred eco-vendors.

10.5 Electric Vehicles (EV)

- **Requirements:** The invoice must display the vendor's 9-digit VAT Registration Number (e.g., GB 123 4567 89).
- **Consequence:** If a standard "summary" receipt is submitted without a VAT number for an expense over £25.00, the reimbursement will be processed, but a 20% "Tax Recovery Penalty" will be deducted from the employee's next pay cycle to cover the lost corporate tax credit.

14.1.2 UK Mileage (HMRC Rates)

Employees using personal vehicles in the UK are reimbursed based on HMRC Approved Mileage Allowance Payments (AMAP).

- **First 10,000 miles:** 45p per mile.

14.2.2 Per Diem Option (Germany/France Only)

Employees based in Germany or France may choose a flat-rate "Meal Allowance" (Verpflegungsmehraufwand) instead of submitting actual receipts.

- **Germany (Over 24h):** €28.00 per full calendar day.
- **Germany (Arrival/Departure days):** €14.00.
- **Note:** If the hotel provides breakfast, the daily allowance must be reduced by 20% (€5.60).

14.4.2 Tipping Standards (USA)

- **Standard:** 18% to 20% is the expected norm for sit-down service.

- **Maximum:** Tips above 25% are strictly non-reimbursable.

14.5 United Arab Emirates (UAE) and Middle East

14.5.1 Weekend Definition

Employees must note that the standard work week in many Middle Eastern regions (including the UAE) is Monday through Friday, aligning with global markets. However, for travel to regions observing a Friday/Saturday weekend, expenses incurred on Sundays are considered "Normal Business Days" and do not require the "Weekend Travel Justification" tag.

14.5.2 Prayer Times and Productivity
